Product Description

1219mm 2438mm Stainless Steel Plate Sheet 0.4mm Decoration Use SS Sheet Metal

When it comes time to pick a material for your product or manufacturing process, characteristics such as weight, strength, corrosion resistance, and cost are usually top of mind. That is what has made stainless steel such an important metal for the past one hundred years. With so many alloys to choose from, there most likely is a stainless steel that is perfect for your application at a cost that makes sense. And one of the top options you will want to consider is alloy 304.
