Product Description

304 Steel Hot Rolled Stainless Steel Coil 3-20mm Thickness No.1 Surface

Vehicles/automotive industry

This is a fast growing stainless steel coil application. High-strength stainless steel coil plate manufacturing body structure can significantly reduce the weight of the car, improve the strength of the body structure, the vehicle by stainless steel coil plate can reduce maintenance costs and decorative parts.

In addition, stainless steel coil has the advantage of resisting chloride ion corrosion and heat resistance due to automobile exhaust system. The automotive industry is the key to the development of stainless steel coil applications.
